4th Grade Class
Weekly Newsletter

Week 6! We welcome Xavier Vanderhyde to our class!!!

Our **Word Wall** is growing with various vocabulary words we are collecting while engrossed in study.

We are continuing to learn how to improve constructing sentences by using **compound subjects and compound verbs within a sentence**. We are learning how to divide words into syllables using the **Spalding syllable division method**. Their **Word Builders Card System** is a fun activity for applying rules when adding affixes.

In **Literature** we are learning how to **draw inferences** in reading passages. This will provide strategies to help deeper thinking when answering questions within the text.

In **Science** we're continuing with the **digestion system, bacteria and germs** and how they can be both good and bad for you.

In **Social Studies** we are learning how to read map scales.

Phonograms for the week.

ea,c,ir,ed,ou,ie,au,si,our,ai,ay,ck
augh,th,b,p,s,r,wor,ch

Poem-The Germ Stopping Song

Cover when we cough. Cover when we sneeze. Use a tissue. Wash our hands. Let's keep our own germs, please!

Quote of the week.

"The struggle you're in today is developing the strength you need for tomorrow."

Need: Water Bottles and cough drops if needed.

***Progress Reports went home Friday in your child's backpack. Please sign and return.**
