### September Poem. (Due 10/4)

#### Eating Words By Katherine Hauht

When you know  
that *vore* means *eat*,  
you will know  
that **insectivores** feed  
on grasshoppers, moths, and butterflies,  
mosquitoes, bees, and plain old flies.

When you know  
that *carni* means *meat*,  
that **carnivores** eat

snakes and lizards, deer and lamb,  
carrion, birds, fish, and ham.

When you know  
that *herb* means *plant*  
you will know  
that *herbivores* CAN'T  
eat anything that moves on a foot,  
just foods that spring up from a root.

When you know  
that *omni* means *all*,  
you will know  
that **omnivores** call  
Everything

they can suck or chew--  
sometimes even me or you--  
food
