

Week of September 10th

This week:

**Principal's Math Club.** Congratulations to Kiersten, Xavier, Olivia, Anahi, Jael, and Henry for making the Principal's Math Club for August.

**September Poem.** (Due 10/4)

**Eating Words** By Katherine Haut

When you know  
that *vore* means *eat*,  
you will know  
that **insectivores** feed  
on grasshoppers, moths, and butterflies,  
mosquitoes, bees, and plain old flies.

When you know  
that *carni* means *meat*,  
that **carnivores** eat  
snakes and lizards, deer and lamb,  
carrion, birds, fish, and ham.

When you know  
that *herb* means *plant*  
you will know  
that **herbivores** CANT  
eat anything that moves on a foot,  
just foods that spring up from a root.

When you know  
that *omni* means *all*,  
you will know  
that **omnivores** call  
Everything  
they can suck or chew--  
sometimes even me or you--  
food

**Reading/Writing.** Reading Paired Text: *Making Our Voices Heard Pt. 1*

**Science.** Heredity and Traits: Can horses and zebras have babies together?

**Social Studies:** Map Skills: Map Coordinates
