

Kindergarten Newsletter
5/16/22 to 5/20/22
Week # 37

Dear Parents.

We are in the last few weeks of school. I am very proud of all the students this year. Please read the newsletter. There are many things that take place during this time. I will continue to work with the students as if school has just started. This is to help with behavior and also keep them on the track during the summer. Our school is offering a summer school program. Please ask about this at the office.

****END OF YEAR PROGRAM ON THURSDAY, MAY 19th at 1pm and 3pm. Please come!** 😊

Spelling : We are finished with Spelling :-)

Spalding:

Review of all Phonograms Aa - Zz and double letter phonograms ch, th, fr, sh, er, qu, ar, ow, wh, oy, or, ee, wr, aw/au, kn, ur, ir, gh, oa, ay, ai, ey, ck, ed, oa, ng, ph, ew, ir, oe, sc, eo.

Reading: We will continue to read narratives and informatives. We have been working with our **little books**. These books will come home. The students need to read and practice with these books. Keep them at HOME! We will also read simple words, phonogram blending and work on reading comprehension.

Handwriting: Our focus will be on all letters. Top, middle and bottom are so very important. At school we say that tall letters go in the attic, short letters are written where the person lives and some letters such as g, j, q, y go in the basement. We use this language in the classroom, it may be beneficial for them at home too! We will continue to work on writing A through Zz, staying between the lines and starting at the correct point on the paper. Please practice writing at home.

Language Arts : Listening skills, following directions, opposites, word families, nouns, verbs and predicting what will happen next(sequencing) in a story or reading selection. We will be working on writing a sentence and using our phonograms to help us spell unfamiliar words. We will also be reviewing concepts that have been presented throughout the year.

Math : This week we will be working on counting money and understanding time using Judy clocks. These last weeks I will also review all math concepts that the students have worked with during the year..

Social Studies : This week we will be looking into transportation and communication.

Science :We will be working on understanding "Weather". We will discuss weather tools and patterns. The students will also learn about different types of weather and weather safety. **The students will be going to the park on Friday, May 20th, at 9:00 - 10:00 to launch rockets made in Mr. K's Science enrichment program!**

Homework : It is important that we keep working and reviewing. Please make sure to sign the homework slip each night! :-)

Thank You,

Mrs. Kimball
