Please make sure your students are working on their book reports throughout the week; they are due with their homework folders on Friday mornings.

In your student's homework papers is a question paper for the story they should be reading this week. **They should be answering the questions nightly as they read.** I am grading this by how many words there are for answers.

*fun* After Spring Break, we will be studying sand from different beaches. If you are going to a beach over Spring Break, would you please bring some sand back for us to look at? My cousin brought me sand from San Filipe. My niece is supposed to send me sand from Florida, but I'd still like to have more than two beaches to look at.

We are preparing for the Arizona Merit testing in April. *For the math portion of the test, your student will NOT be able to use a multiplication chart; please help them to memorize multiplication so they will not get stuck on the test.* We are NOT allowed to help our students at all, other than reading the instructions to them.
